Vinpower Digital has entered into an exclusive trademark licensing agreement with Xerox to develop, market and support a new line of Xerox-branded duplicators.

The Xerox DVD/CD and Blu-ray duplicators are manual tower duplicators that range from one to 15 writer drives, each of which operates independently of a PC, providing businesses a quick, inexpensive way to make multiple copies of CDs and DVDs. Each of the new models allows users to transfer image files directly from a PC to the duplicator's internal hard drive, saving users the time and effort usually required to produce a master disc for each project.

See Vinpower Digital in NAB booth SL7709, or visit www.vinpowerdigital.com.
